Ibtikar Fund Releases Registration Guides for Palestinian Startups

Ibtikar Fund has released three step-by-step guides to help Palestinian startups register their companies in Palestine, the United Arab Emirates, and Jordan

RAMALLAH, PALESTINE (18/11/2018) – On November 18, 2018, Ibtikar Fund released a series of guides to help Palestinian startups understand the steps required from them to register a company in Palestine, Jordan and the United Arab Emirates.

The guides include a list of documents that will be required from the entrepreneurs, and guide entrepreneurs through an often complicated and overwhelming process.

“Palestinian startups must navigate a number of hurdles when expanding to the region and the world. We commissioned these guides to help guide them as they decide where to register their companies as they expand, as well as help them through the process,” explained Habib Hazzan, Managing General Partner of Ibtikar Fund.

Jordan and the United Arab Emirates were selected given the high interest by Palestinian startups in exploring registration in these domiciles as they expand regionally.

The guides can be downloaded here.

About Ibtikar Fund

Ibtikar Fund is a disruptive fund that invests in innovative Palestinian companies at their earliest stages. Ibtikar’s investments begin at the seed level through local accelerators, continue in post-acceleration phases and can also include series A investments in its portfolio companies. Through this investment strategy, we bridge a critical funding gap between acceleration and VC and other later-stage investors. For more information, please visit www.ibtikarfund.com.
